	28	Nervous System	Operation/Procedure	Core	<a href="#">Nerve Block - Intercostal</a>
	28	Nervous System	Operation/Procedure	Advanced	<a href="#">Nerve Block(s) - Peripheral other than Digital</a>

\* These topics are currently split over multiple modules on the SCORE Portal; the modules are scheduled to be combined in the future. See Changes to Patient Care for more details.

**Core:** Diseases and procedures encountered in general surgery for which a graduate of training will possess significant knowledge and be able to provide comprehensive care, including procedural competency.

**Advanced:** Diseases and procedures that are not consistently part of general surgery practice for which a graduate of training should have sufficient knowledge to make a diagnosis and provide initial management. In some instances, graduates of training will have sufficient knowledge and experience to provide comprehensive care.
