

Installing the ABS EPA App™

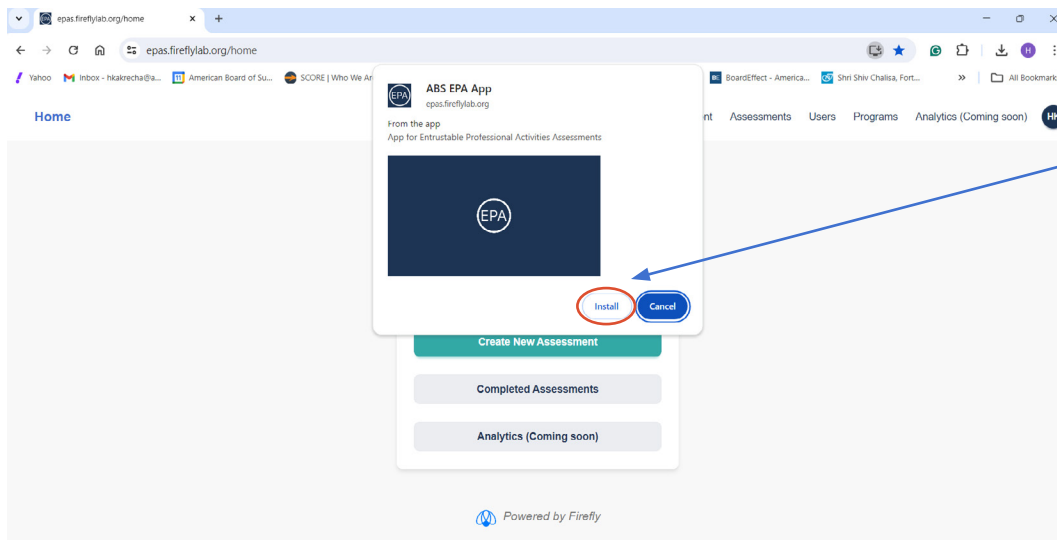

For Vascular Surgery, Pediatric Surgery, Complex
General Surgical Oncology, and Surgical Critical Care

This guide provides information on how to install the ABS EPA App™ on your desktop computer using Chrome, Safari, or Edge, and on your iPhone or Android mobile device. To begin the installation process on any device, open your chosen browser and visit epas.fireflylab.org.

CHROME – Desktop

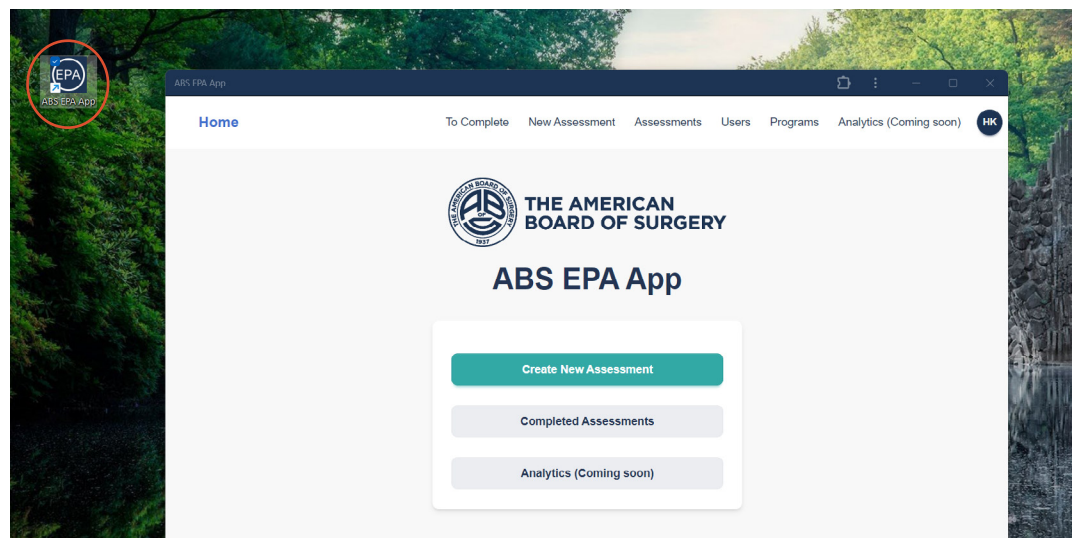

To install via Chrome on a computer, click the install icon (the computer with the down arrow) to the right of the search bar.

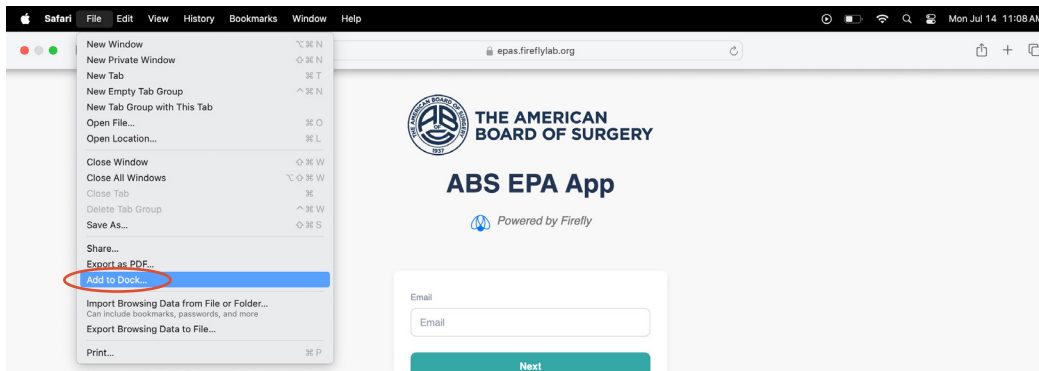

This install confirmation window will appear, click “Install.”

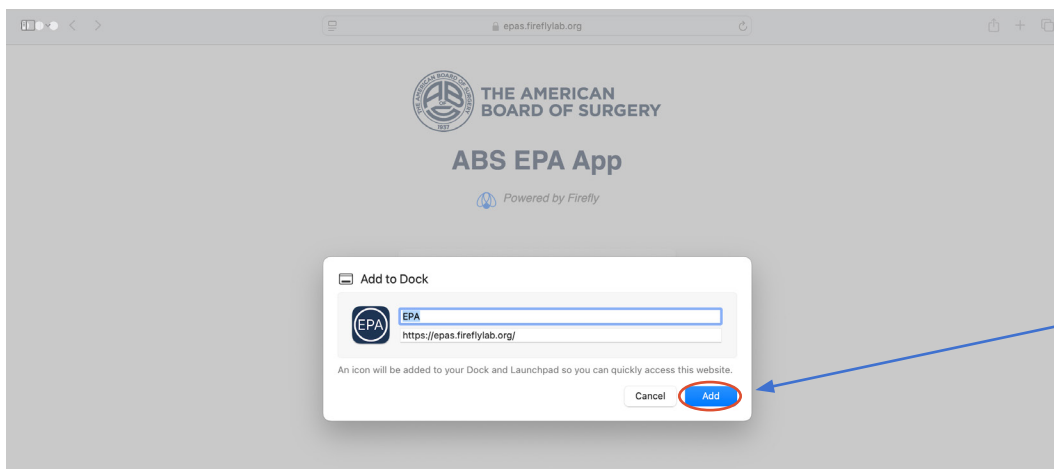

ABS EPA App™ shortcut should appear on your desktop.

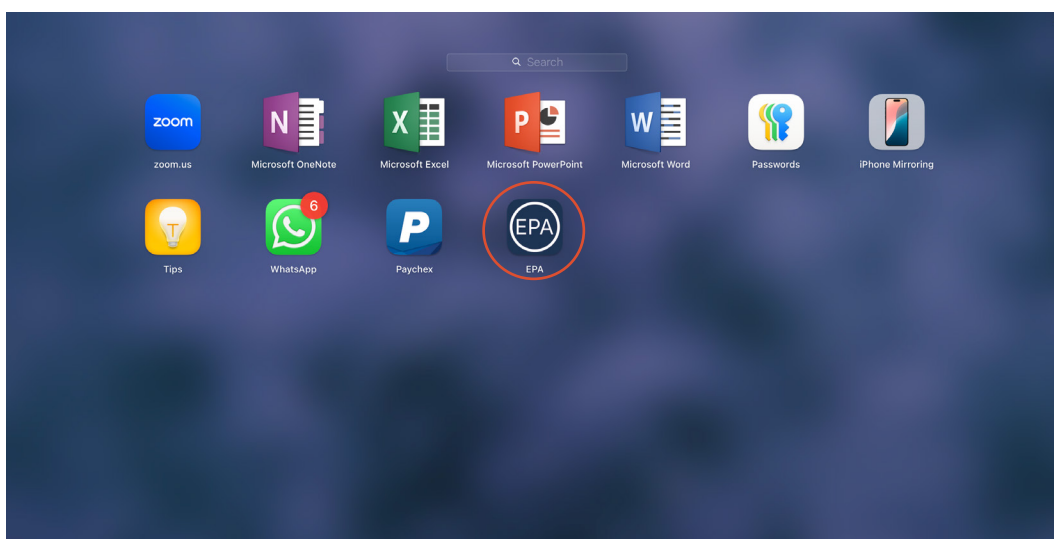

SAFARI – Desktop

To install via Safari, go to “File” then “Add to Dock.”

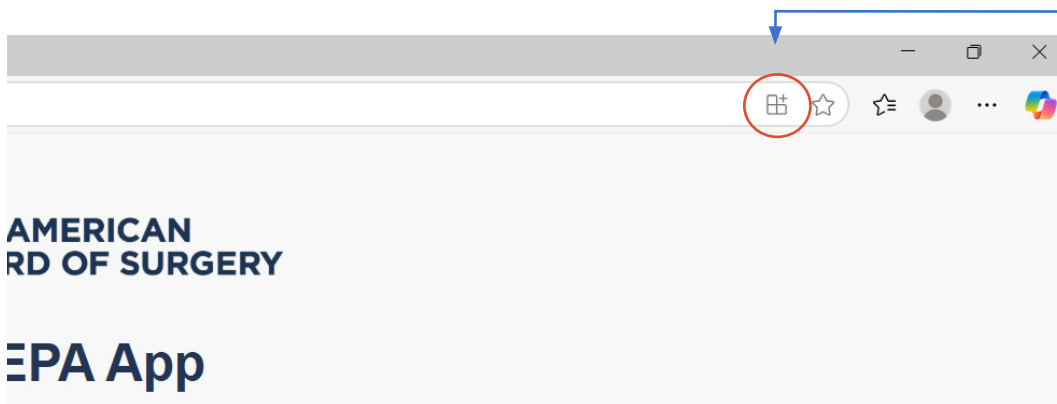

Give the app a name and click “Add.”

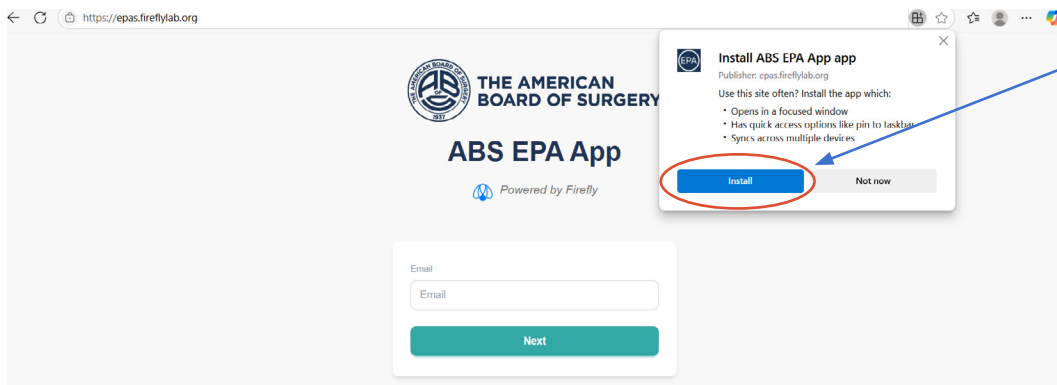

The ABS EPA App™ shortcut should appear in your launchpad or dock.

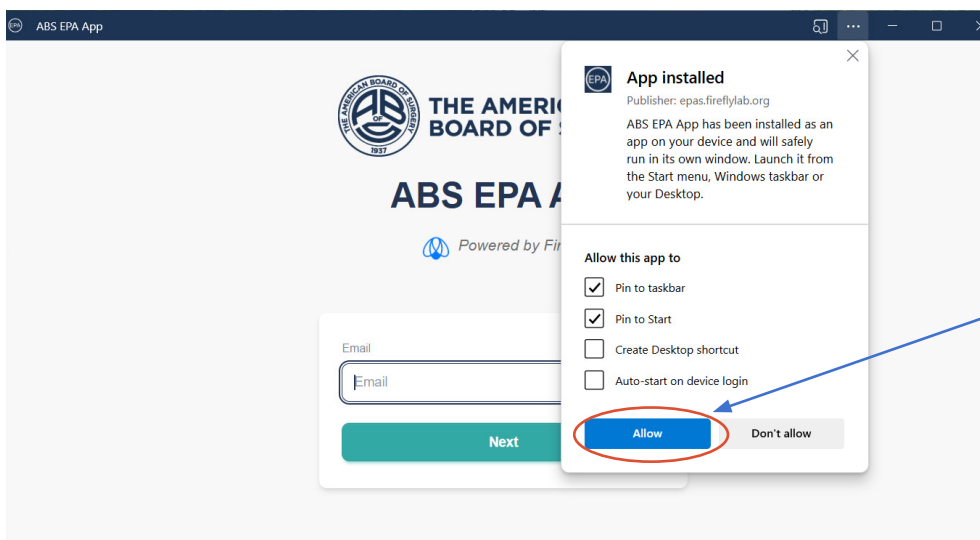

EDGE – Desktop

To install via Edge, click the icon with the three squares and + which is located to the right of the search bar.

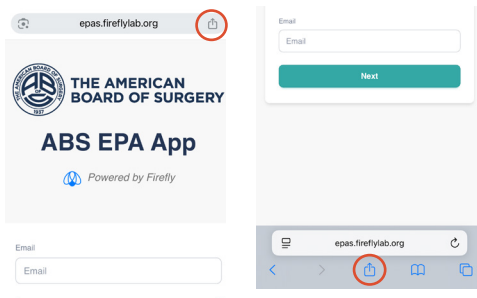

Click "Install."

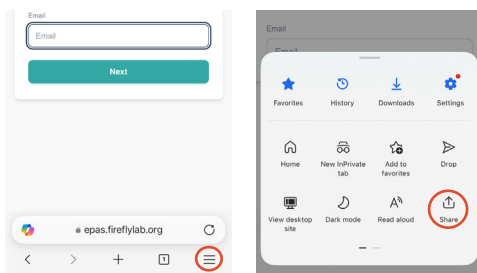

Select where you'd like the app to live and click "Allow."

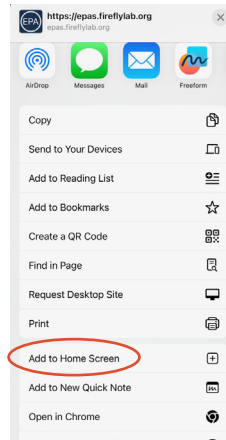

iPhone

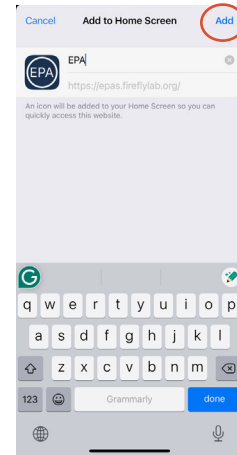

If using Chrome or Safari, tap the “Share” icon (📄).

If using Edge, tap the three lines in the lower right, then select “Share.”

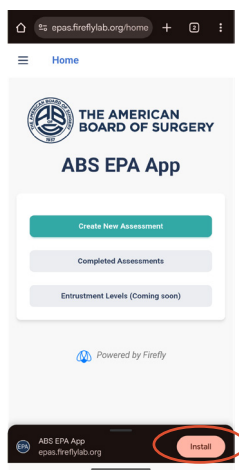

Select “Add to Home Screen.”

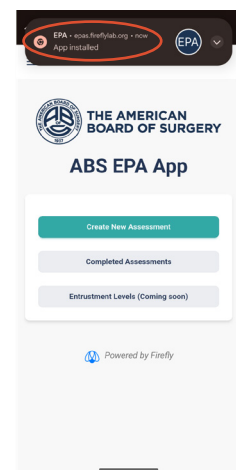

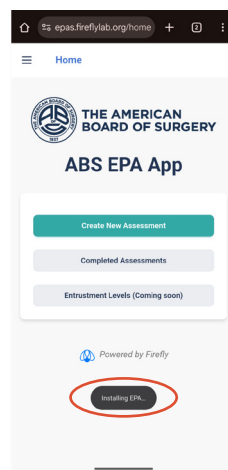

Give the shortcut a name and click “Add” in the upper right corner. The shortcut will appear on your home screen.

Android

When you visit the website, this prompt will appear, select “Install.”

After a short time, a pop-up will inform you the app installed successfully.
