

# Are you looking to accelerate your research and leadership skills and contribute to advancing certification in Surgery?

The **ABMS Scholars Program™** supports early-career researchers in their development as health care leaders within and across the ABMS community.

Grants of \$15,000 are awarded to support research and travel expenses related to program participation and research deliverables. Funding may be applied to an existing research project with a new scope or an original research project.

**Research funding** to advance innovations in assessment, equity, quality improvement, and physician learning

**Mentorship** from institutional research leaders and thought leaders in medical education, certification, and health policy

**Leadership skill-building** to increase impact in practice and training environments

**Connections** with peers advancing lifelong learning and professional development opportunities

**The American Board of Surgery is a co-sponsor of the program.**

**Research topics of interest to the board include:**

- Entrustable professional activities (EPA)
- Quality and performance improvement
