Below you will find the topics and their accompanying references for the 2022 Surgical Critical Care Continuous Certification Assessment. **Diplomates are neither required nor expected to read all of these references before or during the completion of the assessment.** The Key References are marked with a yellow star ⭐ below.

Please note that not all references will be free-to-access at this time. The American Board of Surgery is working to provide diplomates with improved access to articles in future years by communicating with publishers and rightsholders.
